Portfolio https://dhilipraj-portfolio.netlify.app/

OBJECTIVE

To begin my career as a technical professional in the software field by applying my knowledge and skills in a dynamic and learning-focused environment. I am a quick learner, capable of adapting to new technologies and processes efficiently. I am seeking a challenging position in the IT sector where I can continuously grow, contribute to the success of the organization, and develop both professionally and personally.

EDUCATION

B.S Abdur Rahman Crescent University, Chennai

BCA - Mobile Application & Information Security (2020 - 2023) | CGPA: 7.5 | First Class

Sairam Matriculation Hr. Sec. School, Chennai

HSC - 70% (2020) | SSLC - 68% (2018)

TECHNICAL SKILLS

PROGRAMMING LANGUAGES: PYTHON

DATABASE: SQL

WEB TECHNOLOGIES: HTML/CSS, JAVASCRIPT

FRAMEWORK: REACT.JS

LANGUAGES KNOWN: ENGLISH, TAMIL

SOFT SKILLS

- Interpersonal Skills
- Communication Skills
- Teamwork
- Leadership
- Highly interested in doing projects

CERTIFICATION

- 1. Completed Full Stack Python Web Development in Beasant Technologies. (2024)
- Completed Python 3.4.3 Spoken Tutorial Project, IIT Bombay. (2023)

PROJECT

Real-Time YouTube Clone WebApp (Using HTML, CSS, JavaScript)

- Developed a fully functional YouTube clone as a real-time web application, replicating key features of the original platform.
- Implemented a **responsive design** to ensure seamless performance across various devices and screen sizes.
- Utilized JavaScript to handle API requests and dynamically render video content on the user interface.
- Incorporated **interactive features**, including a contact form and dynamic project showcases to enhance user engagement.
- Applied modern CSS practices for a clean, intuitive, and visually appealing user interface.
- GitHub: https://github.com/dhilipraj12/Youtube-clone.git

E-Commerce Website (SWIGGY Clone) – HTML, CSS, JavaScript, React.js

- Designed and developed a responsive e-commerce web application inspired by Swiggy, using modern front-end technologies.
- Structured dynamic web pages using HTML and styled them with CSS to deliver a clean, intuitive, and mobile-friendly user interface.
- Implemented interactive functionality and asynchronous API calls with JavaScript to fetch and display real-time data.
- Built scalable and reusable components using React.js, optimizing performance and ensuring maintainable code architecture.
- Emphasized user experience and followed a component-based architecture to streamline development and improve usability.
- Integrated mock APIs to simulate real-world features such as food item listings, cart management, and order placement for a realistic and engaging user experience.

EXPERIENCE

Dec-2023 to Apr-2024 (5 months)

- Prepared and maintained detailed technical documentation, including standard operating procedures (SOPs), process manuals, and quality control reports for manufacturing operations.
- Collaborated with engineers and production teams to ensure accuracy and clarity of documentation aligned with company standards and ISO compliance.
- Managed version control and ensured timely updates to reflect process changes and continuous improvement initiatives.
- Supported internal audits by organizing and providing required documentation and records.
- Contributed to streamlining document workflow processes, improving efficiency and reducing retrieval time.

DICLARATION

I hereby declared that all the information stated above is true to the best of my knowledge and belief.
